Brigadier General E. K. Wright, U.S.A. Hotel Canterbury 750 Sutter Street San Francisco 9, California

Dear Pinkle:

Thanks very much for your letter of 31 March 1949. All of us in the office enjoyed very much hearing of your trip and the very pleasant time you must be having.

Things here are Just about the same as when you left. The new Secretary of Defense has taken over, and so far there have not been too many changes with us. There is still no solution as to the Deputy—whether or not he will be a civilian—but it looks more and more as if a civilian will be insisted upon. Consequently, we have done nothing more about except to ask the Army to wait.

The weather has been fine, and, what with all the Foreign Ministers around, there has been a lot of running around!

Your visits to Portland and San Francisco sound fine. If you see again, please give him our best regards.

In case you did not know, _______ is being relieved the first of June and is going over as Admiral Conolly's intelligence officer. has arrived and is being kept very busy trying to find out all the details about SO.

I really haven't much news for you, but all of us would like to hear from you again after you get out to Japan and find out what you are going to do. We are all interested in your new assignment and would welcome any dope you can send us.

Janie joins me in very best wishes to Millie and yourself, and I am sure that I speak for the whole office when I say that all of us send our very best regards to you.

Hear Hilly: We are really living the life of Riley!

Aloning all the things you keep talking of doing and yet never getting around to it. Some friends have fixed me up with a card at a good golf club and I get in a round at least every other day. Have seen a comple of good shows, have done a few small night spots - and even saw the local opening of the Pacific Coast

The trip out was uneventful except for the usual friendly bins put on at Fort Knox and Fort Riley. We had good weather bad, neither of such proportions be very where his
